THOUGHTFUL INTERIORS, BEAUTIFULLY CURATED

MEET THE FOUNDER

A personal approach to home styling

Welcome to Boxwood Home Interiors.

Boxwood was founded in 2021 from a genuine love of creating beautiful, welcoming homes. What began with a carefully chosen collection of homeware soon grew into something much more personal.

As customers began asking for help styling their own spaces, I realised how much I loved bringing a forgotten corner, a complete room, an entire home or even an outdoor space to life.

My inspiration comes from real places and experiences - from Mediterranean travels and beautiful hotels to country houses, gardens and the thoughtful details I notice along the way. I bring those influences together to create spaces that feel calm, characterful and completely personal.

We are a small family-run business, so every project truly matters. I take time to understand how you live, what you love and how you want your home to feel.

Beautiful homes should feel personal, not prescribed.

OUR APPROACH

Considered styling for real homes

At Boxwood, we create calm, characterful interiors that feel collected rather than contrived. From a single shelf or console to a complete room, every detail is chosen to complement the architecture, the people who live there and the pieces they already love.

SELECTED WORK 01

Light, timeless living

Soft neutrals, balanced shelving and natural texture create an elegant scheme that feels both polished and welcoming.

SELECTED WORK 02

The art of the finishing touch

Layered accessories, sculptural forms and carefully judged colour give each surface a sense of rhythm without losing the feeling of calm.

FROM CONCEPT TO REALITY

A clear vision for every space

Styling plans with purpose

Each moodboard brings palette, furniture and decorative details together with purpose, giving clients confidence that every element will work as one considered scheme - and showing how that vision translates into reality.
